There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land may be in the same water shed as the water source and must never have been severed from the sources of supply by an intervening water course or to divert water which originates in a different watershed, or return flows from use of groundwater. An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Division and Use must be filed by a riparian and pre-1914 appropriative water users. The filing of a statement from their diversion, and (3) assists the State to determine if additional water is available for future appropriators. (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream. The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

## GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel.

Generally, a riparian user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different water shed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statement of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water appropriated from their diversion, and (3) assists the State to determine if additional use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional diversion concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

"Statement of Water Diversion and Use",  
"Information Pertaining to Water Rights in California",  
"Water Rights for Stockponds Constructed Prior to 1969",  
"Appropriation of Water in California".

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have

STATE OF CALIFORNIA  
THE RESOURCES AGENCY  
STATE WATER RIGHTS BOARD

STATEMENT OF WATER DIVERSION AND USE

S 3004

This statement should be typewritten or legibly written in ink.

- A. Name of person diverting water. Shasta Forest Co. Blue Licks  
Address Bldg 828 Redding Calif.
- B. Name of body of water at point of diversion. Unnamed stream in Sugar Pine Basin  
Tributary to Kash (Linen) Branch Pit River
- C. Place of diversion. 1 NW 1/4 SE 1/4 Section 9, Township 3 N, Range 6 E, MDMR Book,  
Lesser County, or locate it on sketch of section grid on reverse side with regard to section lines or  
prominent local landmarks.
- D. Name of works.

E. Capacity of diversion works	Capacity of storage reservoir	gallons per second
		gallons per minute
		gallons
		cubic feet per second

Year	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sep.	Oct.	Nov.	Dec.	Total
1966	:	:	:	:	✓	:	✓	✓	✓	✓	✓	✓	✓

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as  
acres of each crop irrigated, average number of persons served, number of stock watered, etc. 360 Head of  
Stock watered

Maximum annual water use in recent years	100,000	gallons
Maximum annual water use in recent years	2 Ac. Feet	cubic feet
Type of diversion facility: gravity	pump	gallons
Method of measurement: water	flow	gallons
	electric power meter	kilowatt hr

F. Purpose of use (what water is being used for) Stock water  
Road water

G. General description or location of place of use (use sketch of section grid on reverse side if you desire)

H. Year of first use as nearly as known 1955

I. Name of person filing statement Ph. H. G. Goebel  
Position Asst. Dist. Forester - Organization  
Address Bldg 107 Agency ST 96101

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.

Date signed 7-7-67

Signature Philip Goebel
